1. A full response to your request for further information on our plans for QRPLUMB termination will be made after a discussion of the various options with the project's principal agents by DC/PPS which is scheduled for 16 May 1990.

2. On 25 April 1990, the PPS QRPLUMB case officer met with the principal agents and informed them that there are plans to terminate the project and that an official from the higher level will meet with them to discuss this development. The two options for termination were discussed in general terms and the QRPLUMBS were asked to examine their situation and draft a plan for "transition from government to private support" of their project. They were told that a cleared management consultant would be made available if they find they need one.
